WORKSTRONG is designed to help you get into the best shape of your life with a proven, results-oriented program that will improve strength, flexibility, endurance, body composition and help you get in the best shape of your life and reach your physical and performance goals.

PROGRAM EXECUTION

Our program is delivered through a combination of light resistance (weights) and locomotive cardiovascular exercises. Heart rate is obviously the key factor in developing the cardiovascular system. Titus fitness training will raise the heart rate several times ('interval training') by delivering the combination of strength training and cardio work. By combining higher intensity strength training with moderate intensity aerobic exercise in the same workout, participants get stronger, more conditioned, leaner, and build an increased post-exercise metabolism.

WHAT TO EXPECT (Your First Month).

- After your first couple workouts you will probably be stiff and sore, this is nothing to be alarmed about, in fact, it is very normal
- After your 3rd – 5th workout your body will handle the stress of the workouts much better
- After 4-6 weeks of consistent attendance you should feel and see significant physical improvements

PHYSICAL CHANGES (2-3+ Months of Consistency).

- Improved total body flexibility, strength, muscle tone and endurance
- Reduced lower back and arthritic pain and less risk of injuries
- Decrease in blood pressure and a lowered risk of obesity, diabetes, stroke and heart disease
- Increased strength in muscles, joints and connective tissues
- Increase in lean body mass with less body fat percentage
- Increased mental health and productivity along with daily energy and improved sleep patterns
